KIRUTHIKA L

kiruthika8013@gmail.com | +91 9361830193 | Portfolio | LinkedIn | GitHub

OBJECTIVE

Motivated Computer Science engineering student passionate about Java, UI/UX Design, Artificial Intelligence, and Full Stack Development. Seeking an entry-level opportunity to apply technical skills, learn new technologies, and contribute to real-world projects. Eager to grow as a software professional while adding value to the organization.

EDUCATION

St. Joseph's College of Engineering, Chennai, TN *Sept 2023 - May 2027*
Final Year | B.E. in Computer Science and Engineering — CGPA: 8.61/10

St. Mary's Girls' Hr. Sec. School, Chengalpattu, TN *Jun 2022 - May 2023*
HSC | Percentage: 92.2%

INTERNSHIP

Retech Solutions Pvt. Ltd. (On-site, Chennai) *July 2024 - August 2024*
Python Full Stack Development Intern

- Gained hands-on exposure to full stack web development using Python and Django.
- Learned to build responsive web pages using HTML, CSS, and Bootstrap.
- Applied these concepts in a Doctor's Appointment Booking System (patient registration, doctor login, scheduling).

PROJECTS

PondyBakes Cake Ordering Website *UI/UX Design, Figma*

- Designed a high-fidelity e-commerce UI in Figma with Home, Product, Checkout, and Payment Success pages.
- Created clean bakery-themed layouts and intuitive user flows for browsing products and completing orders.
- Stage: Completed high-fidelity Figma prototype for presentation and portfolio use.

Late-Onset Neonatal Sepsis Prediction System *Python, Machine Learning, Gradio*

- Developed a hybrid stacking model for predicting Late-Onset Neonatal Sepsis using NICU clinical data.
- Implemented Random Forest, MLP Classifier, and Logistic Regression for accurate sepsis risk prediction.
- Achieved 96.42% accuracy through hybrid stacking and optimized preprocessing techniques.
- Stage: End-to-end working prototype successfully completed.

IdeaVault – Student Project Idea & Collaboration Platform *Java, Spring Boot, Spring Data JPA, MySQL*

- Developed a web-based platform that enables students to create, discover, and collaborate on project ideas based on required technical skills.
- Built REST APIs using Spring Boot and Spring Data JPA for user registration, login, project management, and collaboration requests, with MySQL for persistent data storage.
- Implemented project search, detailed project viewing, join-request submission, and request tracking through an interactive frontend.

TECHNICAL SKILLS

Programming: Java, Python (Basics)
Web Technologies: HTML, CSS, JavaScript, Bootstrap
Frameworks: Spring Boot, Spring Data JPA
Database: MySQL
Tools: IntelliJ IDEA, VS Code, Figma, Canva, Power BI (Basics)
Concepts: Object-Oriented Programming (OOP), Data Structures, Database Management Systems (DBMS)
Soft Skills: Communication, Leadership, Event Management, Analytical Reasoning, Teamwork, Time Management

ACHIEVEMENTS & CERTIFICATIONS

Certifications:

- SQL Basics — SkillRack
- Programming in Java — NPTEL
- Database Management System — NPTEL
- Python For Data Science — NPTEL (Elite)
- Software Testing — NPTEL (Elite)
- Oracle AI Foundation

Competitions:

- Finalist, Make-a-thon 3.0, 2026 (Top 50 Teams)
- Finalist, SIH Internal Edition, 2025
- Finalist, Make-a-thon 1.0, 2025

Achievements:

- Solved 1000+ basic programming problems on SkillRack.
- Solved 50+ problems on LeetCode.

ACTIVITIES

- SEERA: Led 10+ intra-college events and delivered sessions on leadership, communication, and Campus Ambassador experience.
- Computer Society of India (CSI): Member
